

NIKITA SANNIKOV

FRONTEND / FULLSTACK DEVELOPER

Serbia | sannikovnikita1992@gmail.com | [Telegram](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Frontend / Fullstack JavaScript developer with 3+ years of commercial experience. Strong commercial React and TypeScript experience building user-facing and admin interfaces, reusable components, forms, responsive layouts, and API integrations. Worked with Redux Toolkit, RTK Query, REST, and GraphQL. Additional Node.js experience strengthens my understanding of client-server interaction and API-driven applications.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Redux Toolkit, RTK Query, Next.js, React Router, HTML, CSS/SCSS, Tailwind CSS, shadcn/ui, React Hook Form, Zod, Vite, Webpack

API / Backend: REST APIs, GraphQL, Node.js, Express, JWT, Axios

Data: PostgreSQL, Prisma, MongoDB, MSSQL, Redis

Testing / Tools: Jest, Vitest, React Testing Library, Git, Docker, Postman, Swagger/OpenAPI, Figma

PROFESSIONAL EXPERIENCE

LATENODE Remote

Node.js / TypeScript Developer Jun 2025 - Jul 2026

Third-party integrations for a business-process automation platform.

- Built 100+ integrations with external REST and GraphQL APIs, including Discord, Wise, DeepSeek, Canva, and other services.
- Developed actions, triggers, and event handlers for user automation scenarios and external service events.
- Optimized data-processing logic between workflow nodes and refactored integration modules for clearer structure and maintainability.
- Developed and enhanced internal TypeScript modules that extended the capabilities of the integration framework.

Technologies: TypeScript, Node.js, REST APIs, GraphQL, Axios

NOVA PLATFORM Remote

Frontend Developer Mar 2023 - May 2025

Web platform for IT professionals learning English, with user dashboards, testing workflows, courses, and an admin panel.

- Developed and evolved user-facing and admin interfaces with React and TypeScript: profile, testing, courses, user management, and learning-material pages.
- Built reusable UI components and forms, including task cards, modal dialogs, notifications, skeleton/loading states, and shared interface elements.
- Managed shared application state with Redux Toolkit and integrated server data and backend APIs using RTK Query and Axios.
- Implemented responsive layouts and user-facing functionality with Tailwind CSS across different screen sizes.
- Extended the existing codebase through bug fixes, component refactoring, and participation in frontend architecture improvements.

Technologies: React, TypeScript, Redux Toolkit, RTK Query, Axios, Tailwind CSS, REST APIs

SELECTED PROJECTS

BENTO PORTFOLIO - Next.js Fullstack Project 2026

[Demo](#)

Editable portfolio application built with Next.js 16 App Router, React 19, and TypeScript.

- Implemented Server and Client Components, Auth.js authentication, PostgreSQL with Prisma, S3-compatible file uploads, drag-and-drop, and MapLibre-based maps with geocoding.

Technologies: Next.js 16, React 19, TypeScript, App Router, Auth.js, Prisma, PostgreSQL, S3, dnd-kit, MapLibre, Zod, Tailwind CSS

SHOPHUB - Fullstack Project 2025

[Demo](#)

E-commerce application with authentication, shopping cart, product search, admin panel, and CRUD functionality.

- Built a responsive React and TypeScript UI with Tailwind CSS and shadcn/ui; implemented Redux Toolkit state management.
- Built Node.js / Express API functionality including authentication, role-based access control, CRUD operations, image uploads, and guest-cart transfer after login.

Technologies: React, TypeScript, Redux Toolkit, Tailwind CSS, shadcn/ui, Node.js, Express, MongoDB, JWT, Docker, Nginx

EDUCATION

URAL FEDERAL UNIVERSITY

Bachelor's Degree in Control Systems Engineering | 2016 - 2020

Languages: Russian - Native; English
